

GEN. CHANG'S FORCES ARE BEING FROM THE REGION OF PEKING

Peking Government Has Recognized General Wu as Having Assumed Control—Manchurian Guard Within the Capital Has Been Disarmed—General Wu Does Not Intend to Interfere With President Hsu Shih Chang, Whose Term Does Not Expire Until October, 1923—A Reorganization of the Cabinet is Expected.

Peking, May 5.—(By The A. P.)—The forces of General Chang Tso-lin, the Manchurian leader, have been completely driven from the region of Peking, and General Wu Pei-fu is now in control of the situation.

Chang's authority in Peking was eliminated today with the disarming of his guard inside the capital, and General Wu was recognized by the Peking government as having assumed control.

It is understood President Hsu Shih Chang will remain in office until the end of his term in October, 1923, and that he does not intend to interfere with him. A reorganization of the cabinet is expected. Premier Liang Shih-chi, who is regarded as the most powerful figure in the cabinet, will be automatically eliminated. The premier at present is in Tien Tsin.

General Wu has remained outside of Peking thus far and has given no indication of an intention to enter the city. He proposes to call a constitutional convention as soon as the military problems are solved, with the intention of uniting north and south China.

The defeat of General Chang is attributed to lack of support by the Peking government from the southern provinces, the neutrality of Shantung and the failure of Dr. Sun Yat-sen, head of the southern government in Canton, to send an expedition northward to operate against General Wu.

SENATE DEBATES CHARGES FORMER RUSSIAN AMBASSADOR

Washington, May 5.—Charges made in the senate against Boris Bakmeteff, the last accredited ambassador to the United States from Russia, promised tonight to develop an interesting debate in official circles over the attitude of the American government toward the Russian people and the unpaid Russian debt to this country.

State department officials refused to make any comment, although it was indicated that some statement of Bakmeteff might result later from the speech yesterday by Senator Borah challenging the status of Bakmeteff as ambassador.

On previous occasions administration officials have indicated that the records of the American government showed nothing to justify the charges that Bakmeteff had been a Russian agent. They have shown no disposition to make a formal investigation, but it is known that they are taking steps to inform themselves fully.

State department spokesmen likewise are silent regarding Senator Borah's declaration that Bakmeteff had been a Russian agent. Bakmeteff was a Russian agent, they said, but they are taking steps to inform themselves fully.

IMPROVEMENT IN BUSINESS CONTROLS IN NATION-WIDE

Representatives of the Twelve Federal Reserve Districts Report a General Strengthening of the Economic Conditions—Herbert W. Scott of the Boston District Has Reported a Marked Improvement in New England—Florida Conditions Were Reported Better Than Any State in the Union.

Washington, May 5.—(By The A. P.)—General strengthening of the economic machinery of the nation was reported today to the Controller of the Currency by the twelve chief national bank examiners, representing the federal reserve districts of the country at their annual meeting in Washington.

In the main the examiners said there had been a notable improvement in business conditions throughout the country, together with restored confidence and a favorable outlook for the future. The belief was expressed, however, that progress towards normal conditions would be gradual and not an overnight accomplishment.

Marked improvement in New England business conditions was reported by Herbert W. Scott of the Boston District. Although material prices have been much higher than those of a year ago, the examiners reported that the situation was better than it had been for some time.
